

SAFEITS **E-BOOK**

MOBILiS

Safeits

MULTIFUNCTIONAL, COMPACT, AND VERSATILE

A fixed device, intrusive or non-intrusive, designed to record metrological and non-metrological violations, with or without a display.

The **SAFEITS** monitors multiple lanes with images, videos, and customizable parameters. It features automatic license plate reading (LPR/OCR), wide-angle cameras (rear and/or front), and can be installed in various configurations, ensuring installation flexibility.

MONITORED VIOLATIONS:

- Speeding
- Running a red light
- Stopping on pedestrian crosswalks
- Driving in exclusive lanes
- Driving in non-designated lanes
- Driving during restricted hours or locations
- Illegal turns or U-turns
- Driving on bike lanes and cycle tracks
- Toll evasion
- Weigh station evasion
- In-motion weighing (LS-WIM, WIM, and HS-WIM)

LEARN MORE ABOUT MOBILIS

Mobilis is a pioneer in the development and application of technology for security, enforcement, and traffic management. A leader in the sector, we operate throughout Brazil and in over 500 municipalities.

We believe that all technology should be understood and used for the benefit of people, making their lives richer and more productive. With a broad focus on road and public safety, we have been working for more than three decades with the mission of saving lives.
